

Socket Mobile Power Pack

Mobile Power for Your Mobile Life

Portable Power Outlet!

No power outlet available? Socket's got the solution!

Now you can re-charge your portable electronic devices wherever and whenever. From coffee shops to train stations, on the plane or on the road, the Socket Mobile Power Pack is the ultimate power source that goes where you go!

Simplify your Mobile Power Needs!

The Socket Mobile Power Pack eliminates the hassle of carrying around charging adapters, extra batteries and travel converters. Just plug your mobile device into the Mobile Power Pack with the appropriate adapter, and experience the convenience of a power source that goes where you go!

Flexible Power!

The Socket Mobile Power Pack replaces your multiple charging adapters with a single high-capacity, rechargeable lithium-ion battery that allows you to power up your devices multiple times on a single charge.

FEATURES

- Charge and power:
 - PDAs — Pocket PC, PalmOne, and RIM BlackBerry devices, etc.
 - Mobile phones and Smartphones — Motorola, Nokia, Samsung, Siemens, Sony Ericsson, etc.
 - Media Players — Apple iPod, Sony PSP, PMP, etc.
 - Digital Cameras
 - Can charge most devices that draw power from a USB port
- Replaces the need to carry multiple power chargers with a single power source
- Powerful lithium-ion battery pack with 7,200 mAh rated capacity
 - Output (Discharging Voltage): +5 Volts at 1.8 Amps
 - Input (Charging Voltage): +5 Volts at 3 Amps
 - A fully charged Mobile Power Pack can charge/run the most demanding 5 Volt devices several times
- Easy to use — just attach the right adapter, then plug your device into the Mobile Power Pack*
 - Charges/runs using your device's standard DC connector or USB port
- Rechargeable — can be charged again and again without memory effect
- Low Battery & Battery Charging LEDs
- On/Off Switch for complete battery disconnection and reset
- High performance circuit protection
 - Includes circuit protection for over-voltage, undervoltage, and shorting
 - Automatically regulates voltage while charging and discharging
 - Two trip features — one for low battery, which triggers the LED, and another to prevent overdischarge

Socket Mobile Power Pack

Product # AC4009-614

In the Box:

- Socket Mobile Power Pack
- Leather case
- Apple iPod Mini retractable charging cable
- 6 v booster for Nokia phones
- palmOne Treo 650/Tungsten T5 charging cable
- Retractable USB cable
- 3.5 and 2.5 mm barrel connector adapters
- Charging cable - USB to 4 mm barrel connector
- Travel pouch
- AC Adapter with plugs for USA, Europe, UK, Australia

Items not shown to scale and may vary slightly from those shown.

*For a complete list of compatible devices, please visit:
www.socketcom.com/product/AC4009-541.asp

Some devices may require a power connector adapter. Check the compatibility list at:
www.socketcom.com/product/AC4009-541.asp

USB cables/adapters for phones, PDAs, and other devices are available at select retailers/retailers.

SPECIFICATIONS

Physical Characteristics

Weight: 312 g/11 oz

L x W x H: 4.17 x 3.11 x 1.02 inches
(105.9 x 79 x 26.06 mm)

Battery Type: Rechargeable Lithium ion

Rated Capacity: 7,200 mAh Std Charge/Discharge

Nominal Capacity: 4.4 Ah @ 5 V

Recharge Time: 7 hrs from full discharge

Temperature Range: 0-60°C

Humidity Range: 45-75% rel. humidity

Cycle Life: >500 cycles (>85%) under standard conditions for charging (5 V @ 2 Amps) & discharging (5 V @ 500 mAh)

Charging Voltage/Input

+5 volts @ 3 Amps Max. Jack accepts a standard 4 x 1.65 mm DC power plug

The Mobile Power Pack must connect to an electrical outlet via the AC charger. The AC charger can remain connected for an indefinite period of time without overcharging or damaging the batteries. Contains integrated circuits that monitor voltage and tops-off the batteries as required by pulses of charging current.

Discharge Voltage/Output

+5 volts @ 1.8 Amps. Recessed jack accepts a USB Type A receptacle (any USB sync/charging cord can be used).

For short circuits, or loads that cause a current drain in excess of 2 amps, the battery protection mechanism will respond and disconnect the unit's output. Switch the ON to OFF and back to ON to reset. In the OFF state, all power is removed from the output. In the ON state, the power will restore all circuits to a connected status.

Warranty: 1 Year

Regulatory Compliance: FCC, IC, ETL, CE

LED Indicators:

Low battery LED (yellow):

When the Mobile Power Pack is less than 10% full, the low battery LED will blink yellow. Some usage is possible but not recommended, and you will need to charge the Mobile Power Pack soon.

Charging LED (red):

The charging LED will emit a solid red light when charge is extremely low. While charging, the LED will blink rapidly then slow down and turn off when completely charged.

Included Accessories:

- Leather case
- Apple iPod Mini retractable charging cable
- 6 v booster for Nokia phones and smartphones that require 6 v
- palmOne Treo 650/Tungsten T5 charging cable
- Retractable USB A/M to USB A/F cable
- 3.5 mm barrel connector compatible with Nokia phones and smartphones, some digital cameras, Garmin devices, some *Bluetooth* headsets
- 2.5 mm barrel connector compatible with some mobile phones from LG, Kyocera, Sony Ericsson, and Samsung; and some *Bluetooth* headsets
- Charging cable: Standard USB to 4 mm barrel connector, compatible with all battery-powered Socket products; most Pocket PCs; and some digital cameras.
- AC Adapter with 4 international wall plugs for USA, Europe, UK, and Australia
- Travel pouch
